JOSÉ DAVID AYALA FRANCO

SENIOR TYPESCRIPT / AWS & FRONTEND DEVELOPER | FULL STACK & BACKEND

Parácuaro, Michoacán, México • 453-152-7363 • josedavidayalafranco3@gmail.com

Github: DavidFranco3 • Linkedin: David Franco • NPM: davidfranco3

PROFESSIONAL PROFILE

Senior Software Engineer with 4 years of experience specializing in frontend and cloud development with TypeScript, JavaScript, and component-based architectures. Strong track record integrating AWS services (S3, APIs), managing Docker containerization, and automating continuous delivery through CI/CD pipelines. Advanced expertise in responsive styling (HTML5, SCSS/CSS3), modular state management, and web performance optimization. Bilingual (English C1-C2 certified) with a Computer Engineering degree.

TECHNICAL COMPETENCIES

- **Frontend & TypeScript (Focus):** TypeScript | JavaScript | HTML5 | SCSS / CSS3 | React | Responsive Design
- **Cloud & DevOps:** AWS (S3/EC2) | Docker | CI/CD Pipelines | Git | Postman | Linux
- **Backend & APIs:** Node.js | Express.js | RESTful APIs | JWT / OAuth | Microservices | Laravel | PHP
- **Databases:** MySQL | SQLite | MongoDB
- **Mobile:** Flutter | Dart | Kotlin | Java
- **Methodologies & Quality:** Scrum / Agile | Kanban | Unit Testing (Jest) | Clean Code | Web Accessibility
- **Languages:** Spanish: Native | English: C1-C2

PROFESSIONAL EXPERIENCE

ISOTECH *2022 - Present*

Senior Full-Stack & Cloud Developer

Technical owner for frontend architecture, AWS cloud service integration, and continuous delivery of enterprise web platforms with TypeScript, ensuring high performance, scalability, and web accessibility.

- Designed and implemented modern component-based web architectures using TypeScript, optimizing UI rendering and reactive state management for transactional systems.
- Integrated and consumed cloud services on AWS (S3 for asset storage and RESTful cloud APIs), ensuring secure data transfer and access policies.
- Crafted advanced UI layouts using semantic HTML5, SCSS/CSS3, and responsive design, ensuring web accessibility standards and cross-browser consistency.
- Automated the deployment lifecycle by engineering CI/CD pipelines integrated with Git and Docker containerization, reducing production release bugs by 40%.
- Architected and migrated legacy modules into distributed microservices and RESTful APIs with Node.js and TypeScript, slashing response latency by 85%.
- Optimized index tuning and complex queries in SQL databases (MySQL/SQLite), cutting analytical report processing times from 45s to 3s (a 93% performance gain).
- Implemented automated unit testing suites and REST endpoint validation using Postman and Jest, ensuring software resilience prior to production releases.
- Standardized Clean Code guidelines, PR review processes in Git, and technical documentation, mentoring junior engineers to achieve production autonomy in under 2 months.

EDUCATION

INSTITUTO TECNOLÓGICO SUPERIOR DE APATZINGÁN *2018 - 2023*

Computer Engineering

Specialization in data structures, algorithms, and software engineering fundamentals.

CERTIFICATIONS

Introduction to AI Development *October 2026 (4 hrs)*

mouredev & BIG school

English Level C1-C2 *August 2026 (177 hrs)*

Edutin Academy • ID: 18696518 • app.edutin.com/verify/18696518

Mobile Applications Course *August 2026 (7 hrs)*

BSG Institute • ID: 10971648A31172D0P1
